> 20 Users	Call for Special Pricing.		

Individual Module pricing is based on the number of simultaneous users per module. You may not need a license for every user. You can purchase a different number of user licenses for each module.

Example: If you have an office of 10 but only 8 users would be using the system at any given time then you would probably need 8 Timecard, 8 Contacts, 6 Documents, 1 Project, 1 Staff, etc.

All modules can be purchased separately except as noted.  
Multiple module discount only applies to new modules purchased at the same time.  
Additional modules or user licenses can be added at any time.
